MAUPRC Virtual Conference
April 24, 2020 Noon to 4 pm, Eastern Daylight Time

Guidelines for Conference Participation

Talks and posters will be organized broadly by topic in our web gallery linked from the web site, and sorted alphabetically within topic by first author's last name. Clicking on the thumbnail image of any poster or talk will open a preview window with the title, author(s), abstract, author's email address, and a link to the talk on YouTube or to the poster file.

Attendees (Including Presenters!)

When the conference presentations are posted, we ask that you comment on at least two presentations between 12 PM-4 PM EDT on April 24th. You can ask the presenter a question, share an observation or suggestion, or provide commentary on what you found interesting. Please use the following guidelines when commenting:

1. Make sure you've watched the talk or viewed the poster before commenting!
2. Be respectful and considerate of the person you're communicating with.
3. Please refer to this Netiquette guide from UMC for additional guidance.

To Comment on Talks (Videos)

Click on a video thumbnail image to open a preview window where you can watch the video presentation. After viewing the presentation, click on the link below the abstract to the YouTube video where you can post comments on the video ("like" it) and share it with others.

To Comment on Posters

Click on a poster thumbnail image to open a preview window with a link to download a PDF version of the poster. E-mail the first author of the poster with your comments.

Due to the virtual nature of the conference, we have the potential to reach the largest audience ever for an undergraduate psychology research conference, but we need your help! After you click on any presentation's thumbnail image, there will be two icons at the top left of the screen:

1) "Love" icon to show some love for the presentation, and a
2) "Share" icon that opens further options for sharing the presentation on common social media platforms

Share your favorite presentations (including your own) with your peers, mentors, family, and friends using the #mauprc2020 tag! When viewing recorded talks on YouTube, please also "like" their videos and make comments there.

Student Presenters

On April 24 from 2-4 PM EDT, we ask that you and/or your co-authors be available to check regularly for YouTube comments or submitted emails, and to reply promptly during this 2-hour period.

- **Talks (Videos)**: Regularly refresh your YouTube video page to view comments from other participants and reply using the comment feature there.
- **Posters**: The author(s) should regularly check their email address to respond to questions or comments. If you have co-authors, we suggest copying your co-authors on all email responses.

We look forward to hosting you virtually on April 24th!
